

Maintenance guide for VR Headset

Maintaining your VR headset is not the difficult but there are certain things you should keep in mind to ensure the safety and long term usage guarantee of your equipment.

- Never toss your headset around and never leave it unattended at the outreach venue
- Keep a duffel bag/suitcase where you can keep all the equipment separately, in case you need to share it with other activists within the city.
- Never use VR headsets in rain
- Keep your headset out of reach of small kids and pets, if you have any
- Don't keep it in an extremely cold or hot environment, as it can damage the lens
- Be gentle when handling the headsets, especially the lens adjuster and control.

Your headset needs to be cleaned every once in a while

- You should always use eyeglass cleaning solution and cloth for cleaning the lens of your headset
- For rest of its body, you can use any soft cloth
- Always store your headset in the box provided to you when not in use to keep it away from dust accumulation.

Important Note:-

It is advisable to clean the headset with any cloth after each outreach session to ensure hygiene.
